Professional Summary

Detail-oriented and analytical professional with a strong background in healthcare and emerging expertise in Data Analytics. Recently inducted Pharmacist and 2nd Best Graduating Student of the University of Nigeria, Nsukka (CGPA: 4.94), recognized with multiple academic and excellence awards. Skilled in Excel, Power BI, SQL, data cleaning, data visualization, dashboard development, and analytical reporting. Passionate about transforming data into actionable insights that support business growth and decision-making. Currently seeking entry-level Data Analyst and Data Analytics Internship opportunities in growth-driven organizations.

Skills

- Microsoft Excel (VLookup, Conditional Formatting, Pivot Tables)
- Microsoft Power BI (Data Modeling, DAX)
- SQL
- Python
- Data Cleaning and Transformation
- Data Visualization and Dashboard Design
- Business Data Analysis

Projects

LOGISTICS OPERATIONS PERFORMANCE ANALYSIS DASHBOARD | Capstone Project | Power BI/DAX/Excel May 2026

- Developed an interactive **Power BI dashboard** analyzing logistics operations, fleet performance, customer revenue trends, fuel efficiency, maintenance operations, and safety metrics across 14 interconnected datasets.
- Built executive KPIs and analytical visualizations using **DAX, Power Query, and data modeling techniques** to support operational and business performance analysis.
- Generated actionable insights on revenue concentration, truck utilization, service punctuality, operational cost efficiency, and safety incident trends.

ELECTRONIC PRODUCTS SALES ANALYSIS | Power BI April 2026

- Designed interactive dashboards to analyze revenue, profit, customer trends, and product performance.
- Evaluated profitability across product brands, customer income levels, and product color preferences.
- Generated insights into customer behavior and monthly business performance trends.

SALES DATA ANALYSIS | Microsoft Excel March 2026

- Analyzed sales performance metrics including product profitability, sales representative revenue generation, monthly customer trends, and city-based cost of goods sold.
- Identified the top-performing product, highest revenue-generating sales representative, and the worst-performing month.
- Generated actionable insights from revenue, order, and cost analysis to support business understanding.

Leadership Experience

HEAD OF FINANCE | Antimicrobial Resistance Club, UNN | Enugu, Nigeria November 2024 - February 2026

- Managed budgeting and financial planning for antimicrobial resistance awareness initiatives **using excel sheets and word documents**, ensuring efficient allocation and utilization of resources
- Prepared and presented financial reports, balance sheets, and audit-ready records during relevant meetings

Education

DOCTOR OF PHARMACY (PHARMD) | University of Nigeria, Nsukka (UNN) | Enugu, Nigeria February 2026

CGPA: 4.94/5.00; 2nd Best Graduating Student; Recipient of 15 Academic and Excellence Awards
